ONLINE REFERENCE SHELF - http://www.lib.muohio.edu/research/reference/
This is an online collection of useful reference websites included under the Research Resources section of MiamiLINK. It is currently maintained by Sue Wortman in collaboration with the Consultation Cluster. It is not intended to be an exhaustive resource but rather limited to a few particularly useful sites in each of the broad subject areas. Online citation guides, JAKE, perpetual calendars, and area code maps are a few of the resources included here.

SUBJECT RESEARCH GUIDES & HANDOUTS - http://www.lib.muohio.edu/research/subject_guides.html
This section of MiamiLINK under Research Resources contains online handouts, pathfinders, and guides, each individually developed by the subject specialist librarians for their areas. Librarians are encouraged to develop both print and online materials to assist patrons in locating and using books, periodicals, databases, and websites effectively. Print handouts are compiled by some librarians, and these are found on the rack behind the Help Desk. Additional copies of the handouts can be found in the bottom right hand file drawer in the Consultation Area. Please notify the appropriate librarian when the print handouts appear to be running low.

SITES BY SUBJECT - http://www.lib.muohio.edu/inet/subj/subj.html
This page is listed in the Internet & Websites section of MiamiLINK and contains sites covering a variety of topics not included elsewhere. Some of the areas covered include, copyright and patent, disability information, email directories, entertainment, family life, grants and scholarships, HTML and web design, career resources, Ohio information, travel, and weather. These pages are maintained by librarians who have interest in these areas. Suggestions for sites to add can be made on each page.
